

1. Shut off the power before installation.
2. Fix the mounting strap to ceiling.
3. Feed wires through the central hole of golden tube from both ends and through the upper central rod. Insert the light arms(A, B) into the golden tube from both ends and fix the set screws with Allen key.
4. Screw the upper and bottom central rods tightly into the golden tube. Insert the wires and central rod through the canopy and fix with washer and nut. Repeat step 3 and step 4 to install the rest light arms and central rods.
5. Connect wires to wires matching the color. Then, connect the wire bundles with wire connectors to the corresponding wires in ceiling.
6. Attach the canopy to the mounting strap and fix with screws.
7. Position and tighten the fixing nuts to ceiling with screws, and then screw the pins to fixing nuts.
8. Install light bulbs (not included with the light fixture).
9. Screw light shades onto the lampholders and turn on the power.
